NOTICE

The Owner, his agents and employees shall comply with all Rio Blanco County Land Use Regulations, Building Codes, Fire Codes, Use Tax and Road and Bridge Department requirements governing the location, access and construction of the work for which the permit is granted. Please contact the Building Division with any questions. (970) 878-9450
The Building Official or his agents are authorized to issue an immediate Stop Work of Construction Order at any time a violation of the codes or other regulations associated with this permit appears to have occurred, a violation may also result in the revocation of the permit and other fines and penalties as allowed by law.

General Building Code Requirements

1. All work that requires a permit must remain accessible and exposed for inspection purposes until approved or must be removed, made accessible or exposed for inspection at the permit holder's expense.
2. Concrete which requires reinforcement that has been placed without being inspected must be removed, inspected, and replaced at the permit holder's expense. Upon approval by the Rio Blanco County Building Official the inspection may be waived if approved by a Colorado Licensed Engineer. NO EXCEPTIONS
3. A re-inspection fee may be required if an inspection has been scheduled and work is not ready for inspection or the approved plans are not on site when the Inspector arrives for the Inspection.
4. Any permitted project must pass an inspection every 180 days or it will be considered suspended or abandoned and the permit will be revoked. A new application fee and permit will be required to complete the project unless otherwise approved by the Building Official, before the 180 days have expired.
5. All work must conform to the approved plans. If any changes from the approved plans are required, documents and plans showing compliance with the RBC Building Code must be submitted to the Building Official for review. Any changes to the approved plans must be reviewed and approved by the Building Official before any work is started on any portion of the project associated with those changes. Additional review and permit fees will apply. Failure to comply may result in the issuance of a Stop Work Order for all or a portion of the project.
6. The permitted structure may not be used for any purpose or occupied until a Certificate of Occupancy or Letter of Completion has been issued by the Building Official. Occupancy without approval may result in a penalty equal to the original permit fee.
7. The property owner agrees to allow access to the property at reasonable times to Rio Blanco County Personnel who in the performance of their duties are required to inspect or complete an assessment of the property associated with this permit.
8. It shall be the responsibility of the Owner or their agent to inform those involved with the work associated with any RBC permit of the inspection requirements.
9. The Rio Blanco County Building Division is aware that not everyone will understand the application and inspection process and is here to assist you. Please contact us or come to the office with your questions or concerns, and we will do our best to answer them or find alternative solutions. The entire project from application to finish will go much smoother and more efficiently with good communication.
